

Sponsorship policy

At Arion Bank we want to act as a role model in terms of responsible and profitable business practices which take into account the environment, economy and society in which we live and work.

We endeavour to make a difference and play an active role in society, and this includes sponsoring causes connected to our core activities and which support the UN Sustainable Development Goals, particularly those we have chosen to place a special focus on:

- Gender equality
- Affordable and clean energy
- Decent work and economic growth
- Industry, innovation and infrastructure
- Responsible consumption and production
- Climate action

We do not sponsor projects on the basis of personal interests or business connections, do not sponsor company operations and we seek to have a transparent and simple process.

When selecting sponsorship projects and partners we take into account environmental, social and governance factors and all our partners need to complete the Bank's supplier assessment. The Bank performs a regular assessment of these factors in the case of long-term partnerships.
